

X-Siding, Inc. Install Guide

Although we do our very best to prevent the following from happening, unfortunately some things are out of our control.

ALL SIDING TYPES INCLUDING SOFFIT, FASCIA & ALUMINUM WRAPS

- Your project will be a little messy for the duration of the project. Please allow us to finish and we will be sure to properly clean up the job site.
- Please move any vehicles from the driveway during the entire duration of the project. Materials falling could damage your car. Nails may land on your driveway which could cause damage to your tires. Always inspect the driveway before pulling in for the first time.
- Please move patio furniture, grills, children's toys (etc.) away from the perimeter of the home so we can move freely with scaffolding, ladders, and planks during the installation.
- Please move any special decorative items from the perimeter of your home to prevent damage.
- Please remove any pictures, clocks, mirrors, or other items that could be damaged or fall off your interior walls.
- Although we do our best to remove all nails, screws, and debris from the perimeter of your home it is almost impossible to get every single one. After the installation is completed, please be on the lookout for any nails. If there is an excess amount, please contact us and we will come out and magnet your yard.
- Unfortunately, some plants and grass may be damaged during the installation.
- It is possible that gutters could be damaged due to normal traffic and ladder use. We will do our best to protect your gutters but sometimes damage can be unavoidable.
- Any left-over material is the property of X-Siding, Inc. Please note that we always order extra material to prevent the crew from stopping to go get more material.
- Please have electrical outlets available for the crew to hook up saws and compressors.
- We will NOT be held responsible for faulty wiring or breaker boxes. Please check ALL breakers each day during the project.

I, the homeowner, am aware of the above items. Although I understand that X-Siding, Inc. will do their best not to damage anything around my home, I agree not to hold them responsible.
